

Matterhorn Dice Game Score Sheet

Dice Game Rules:

Each player takes a turn rolling 3 dice.

Use the results of the roll to cross off numbers **in order** on the mountain.

The winner is the first person to cross off all the numbers going up and then down the mountain.

You may only cross off each number rolled once per turn.

Easier Alternate Play: Same rules as above, but you do not have to cross off numbers in sequence.

Example: Let's say you roll 2-3-4

You may use choose to cross off each of the following numbers on your mountain *once*, as long as it is in sequence:

Option A: 2,3,4

Option B: 4, 5 (2+3)

Option C: 9
